Price Status - Final

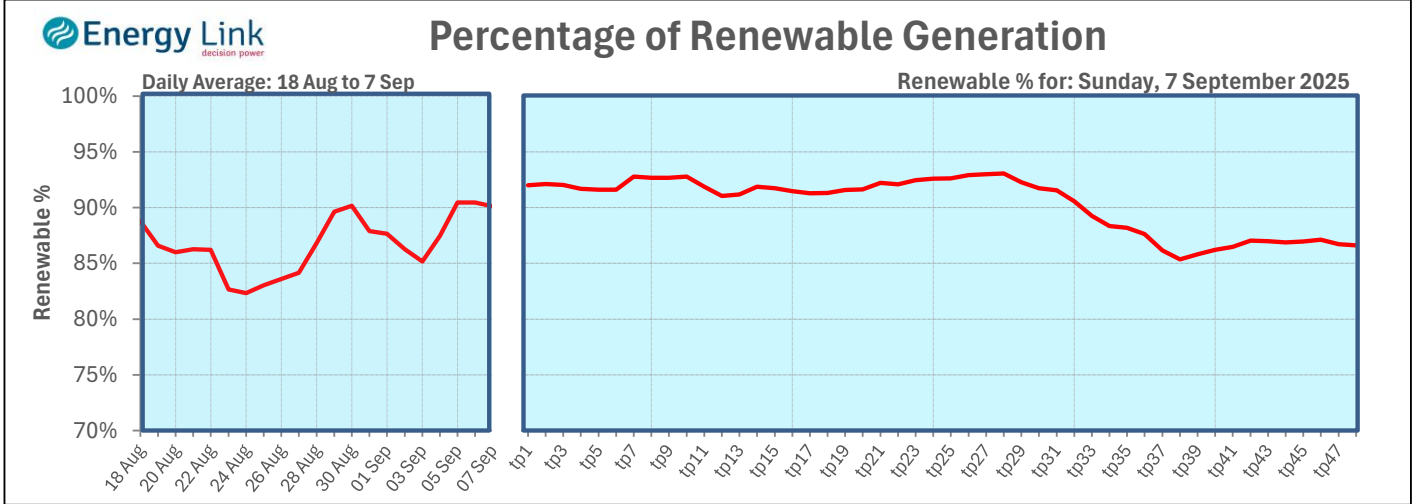

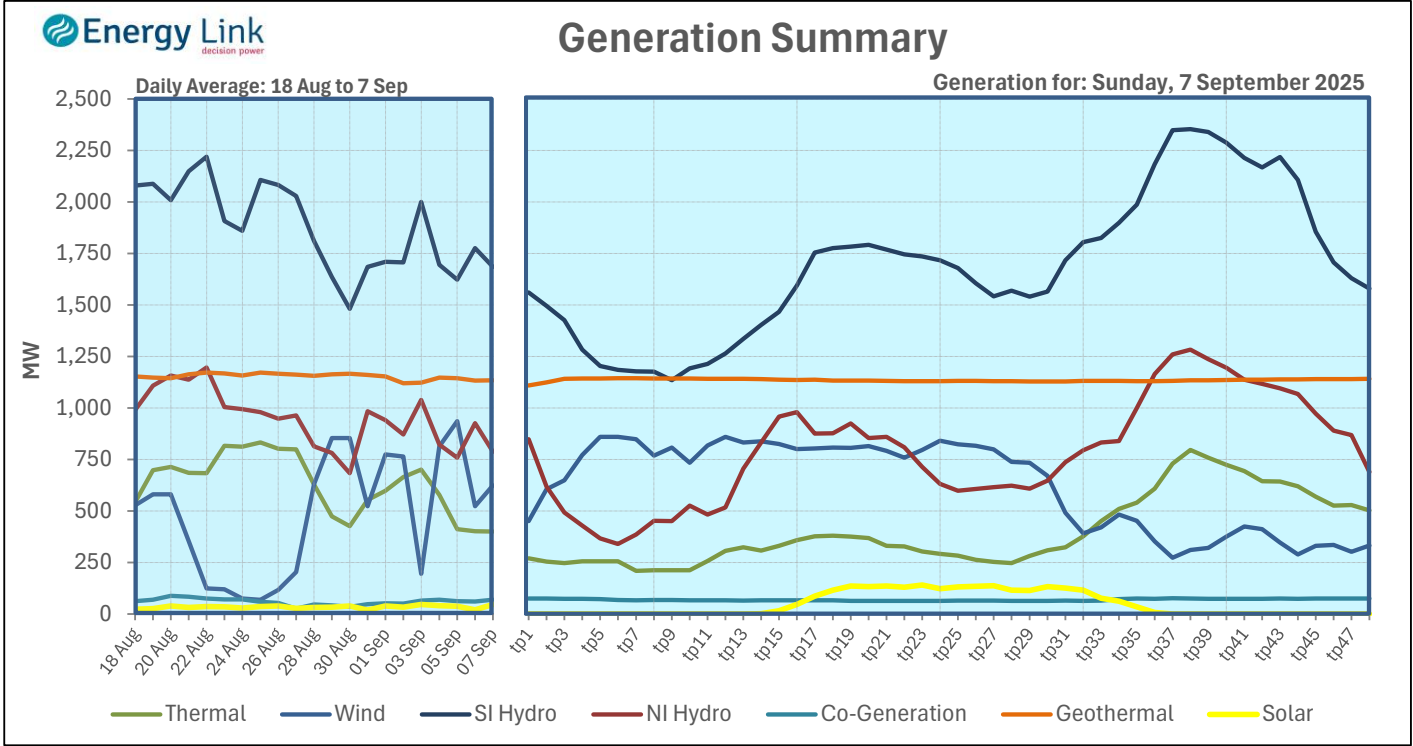

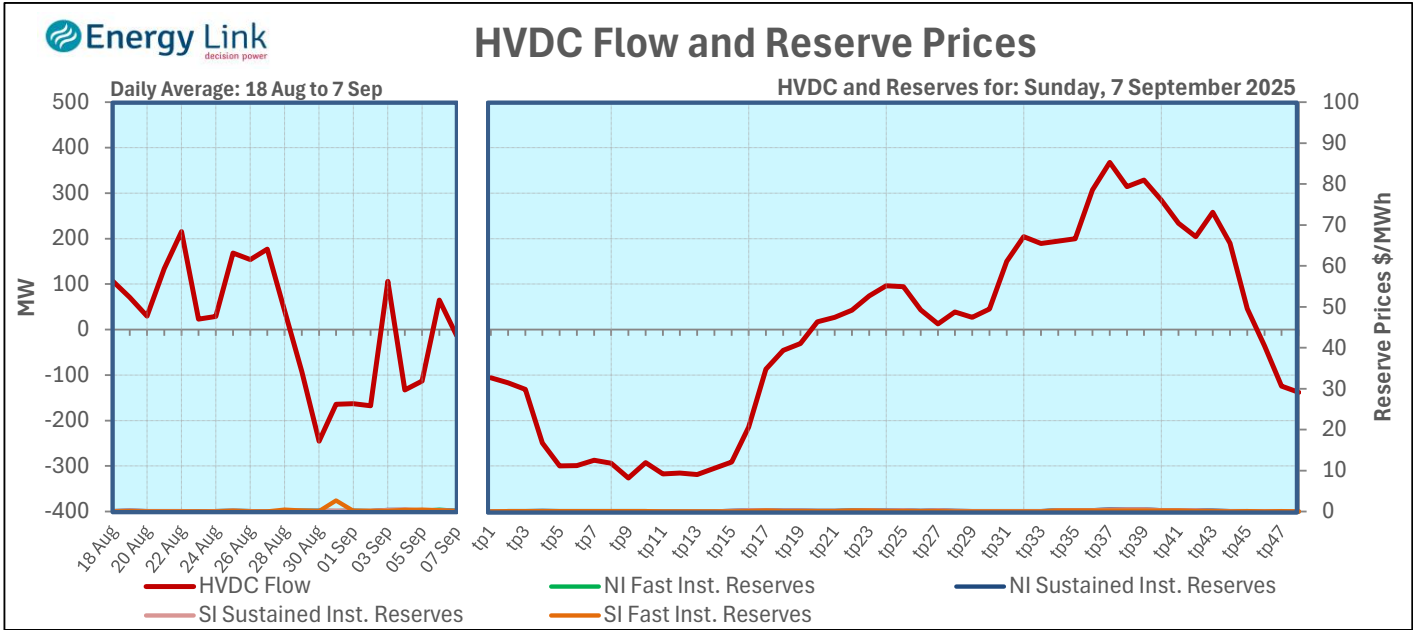

Node:	Month-to-date	7-day Avg	Daily Avg
Benmore	\$180.17	\$180.17	\$164.23
Haywards	\$179.14	\$179.14	\$164.05
Ōtāhuhu	\$182.37	\$182.37	\$166.20

Day	Night	Price Range
\$170.48	\$145.48	\$37.45 - \$226.96
\$171.44	\$141.90	\$36.34 - \$220.18
\$175.32	\$138.82	\$36.42 - \$217.37

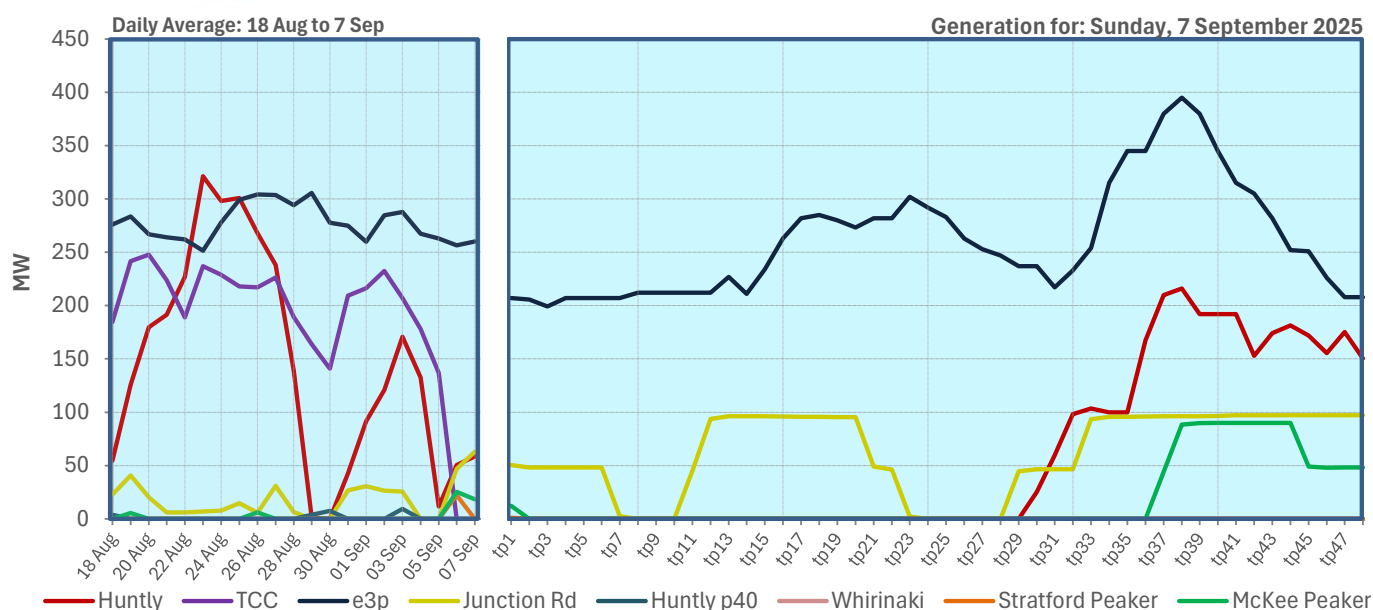

Note: For the purposes of this chart, PRSS indicates periods where PRSS was used.

Thermal Generation

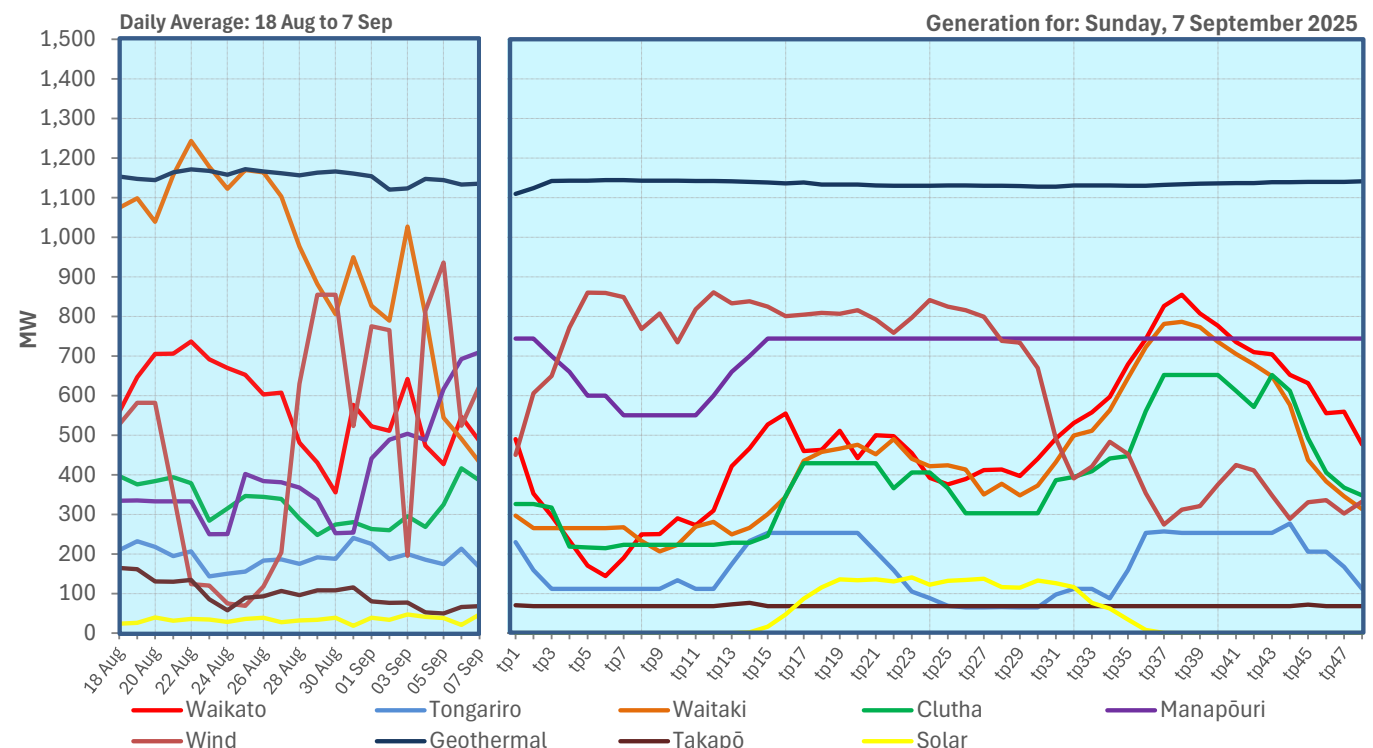

Station	Ave MW	Range (MW)
Huntly	59	0 - 216
TCC	0	0 - 0
e3p	260	199 - 395
Huntly p40	0	0 - 0
Whirinaki	0	0 - 0
Stratford Peaker	0	0 - 1
McKee Peaker	18	0 - 90
Junction Rd	63	0 - 97

Hydro	Ave MW	Range (MW)
Waikato	484	144 - 855
Tongariro	166	65 - 277
Waitaki	432	206 - 787
Takapō	68	68 - 77
Clutha	386	214 - 652
Manapōuri	709	550 - 744
Wind Farms	625	274 - 861

Wind Farms includes: Te Uku, West Wind, Te Āpiti, Tararua, White Hills, Waipipi, Mill Creek, Te Rere Hau, and Harapaki.

Renewable Generation

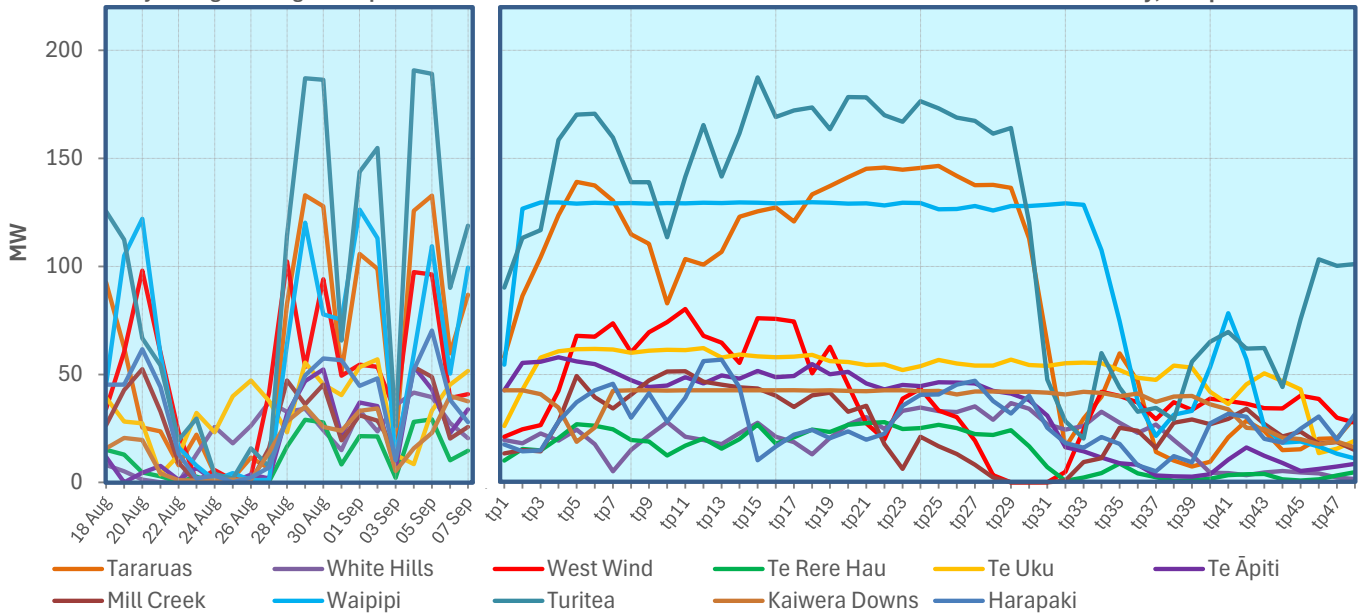

Note: For the purposes of this chart, renewable generation is all hydro, geothermal, wind and grid scale solar.
 Co-generation is counted as thermal generation even though the carbon may be attributed to other industries.

Wind Generation

Daily Average: 18 Aug to 7 Sep

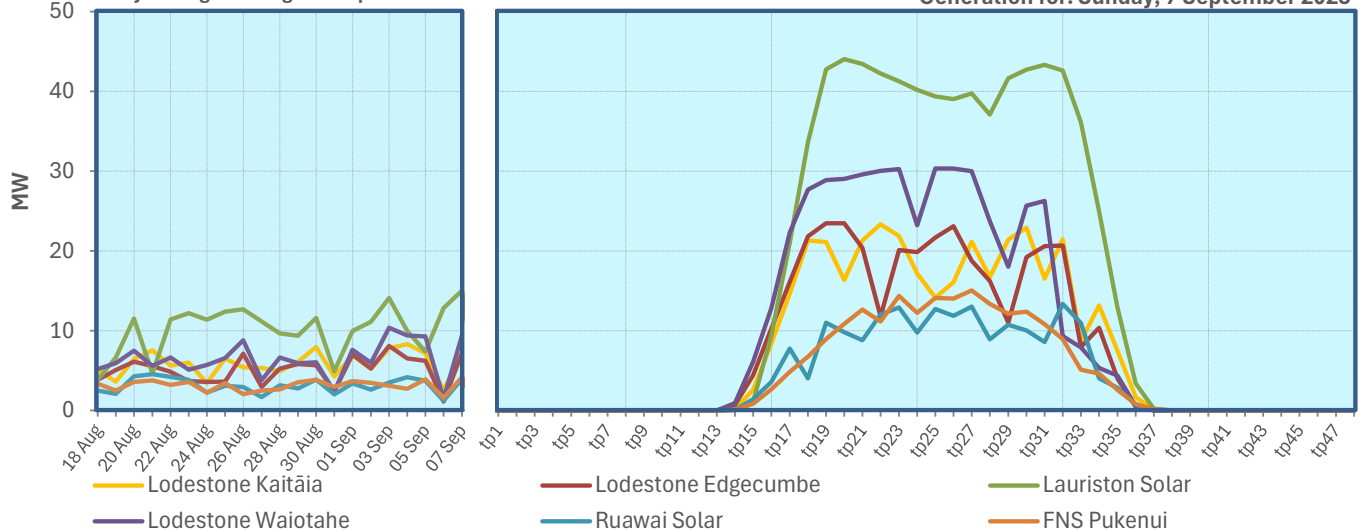

Generation for: Sunday, 7 September 2025

Solar Generation

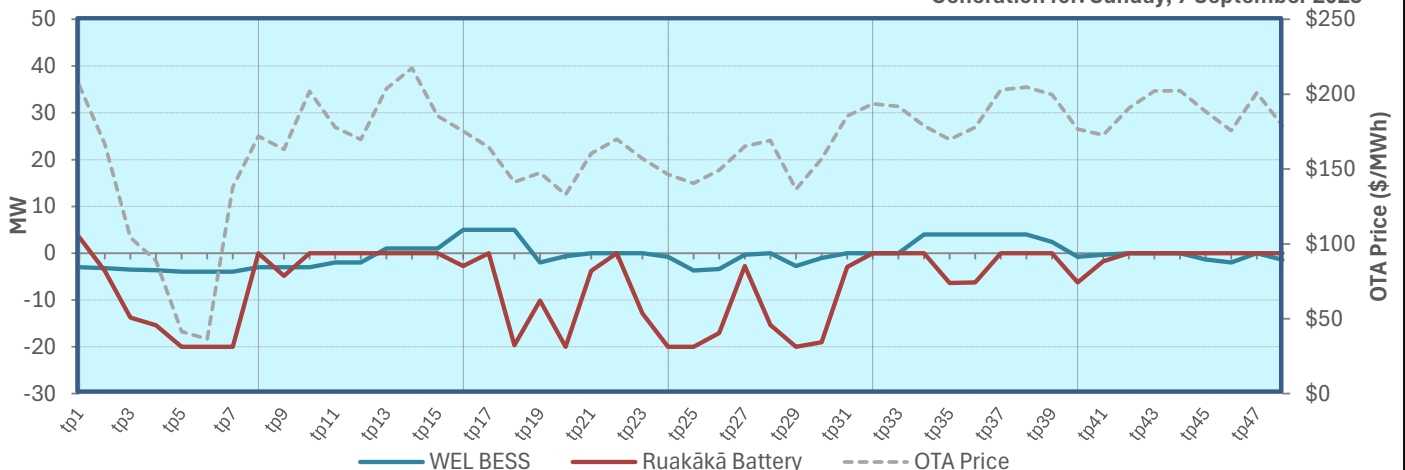

Daily Average: 18 Aug to 7 Sep

Generation for: Sunday, 7 September 2025

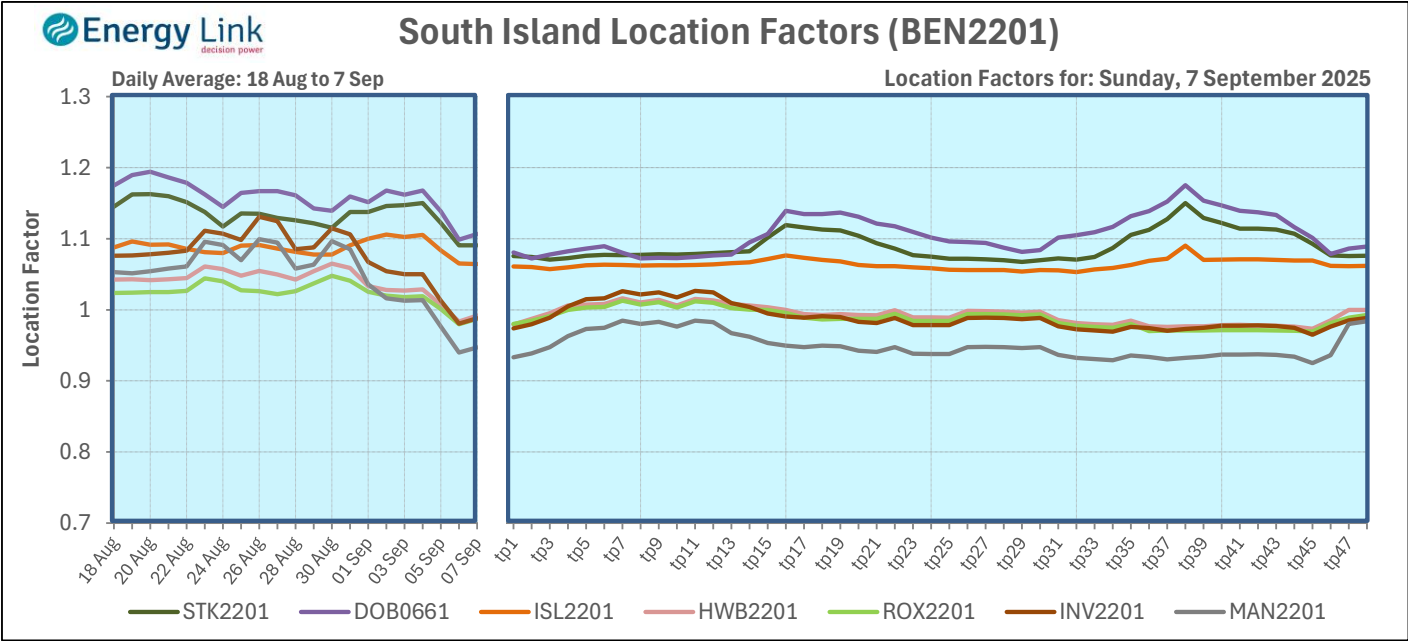

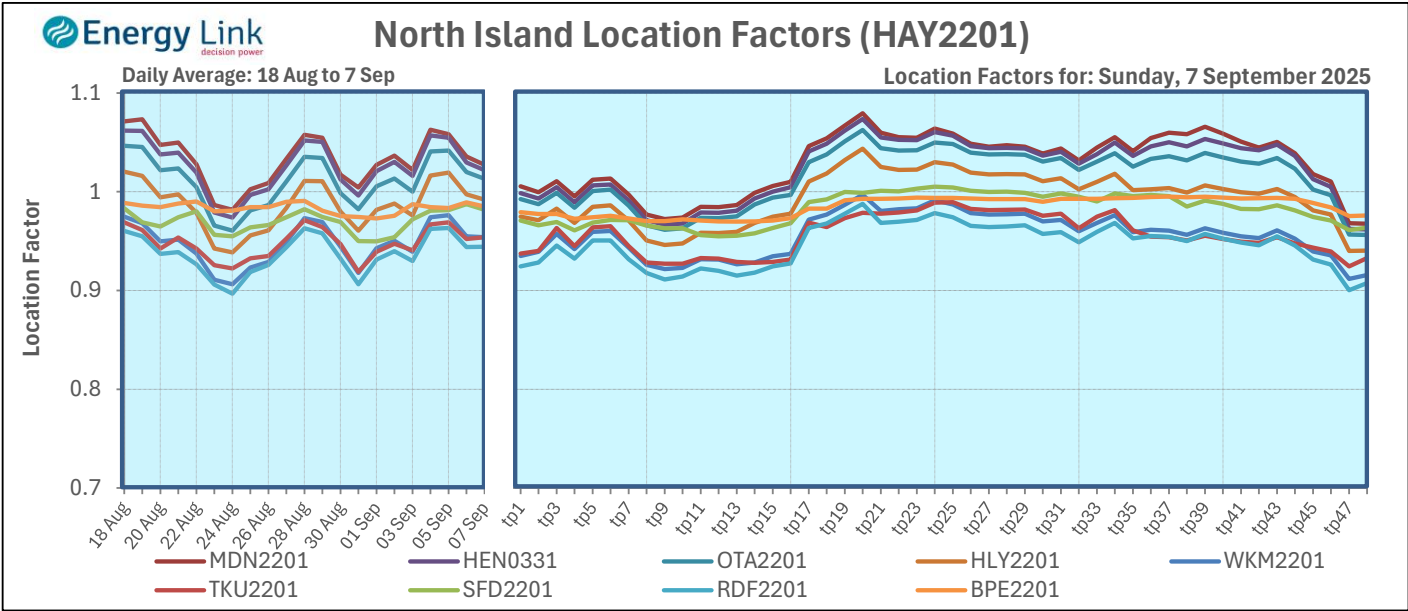

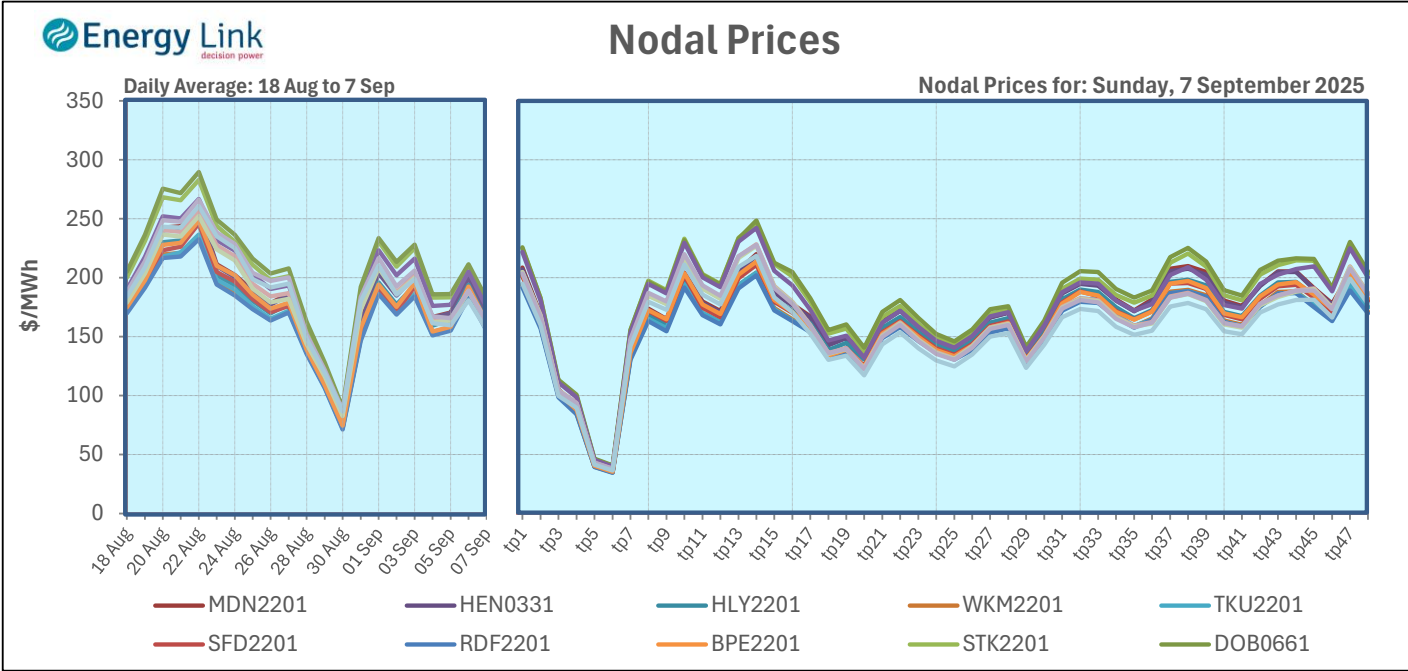

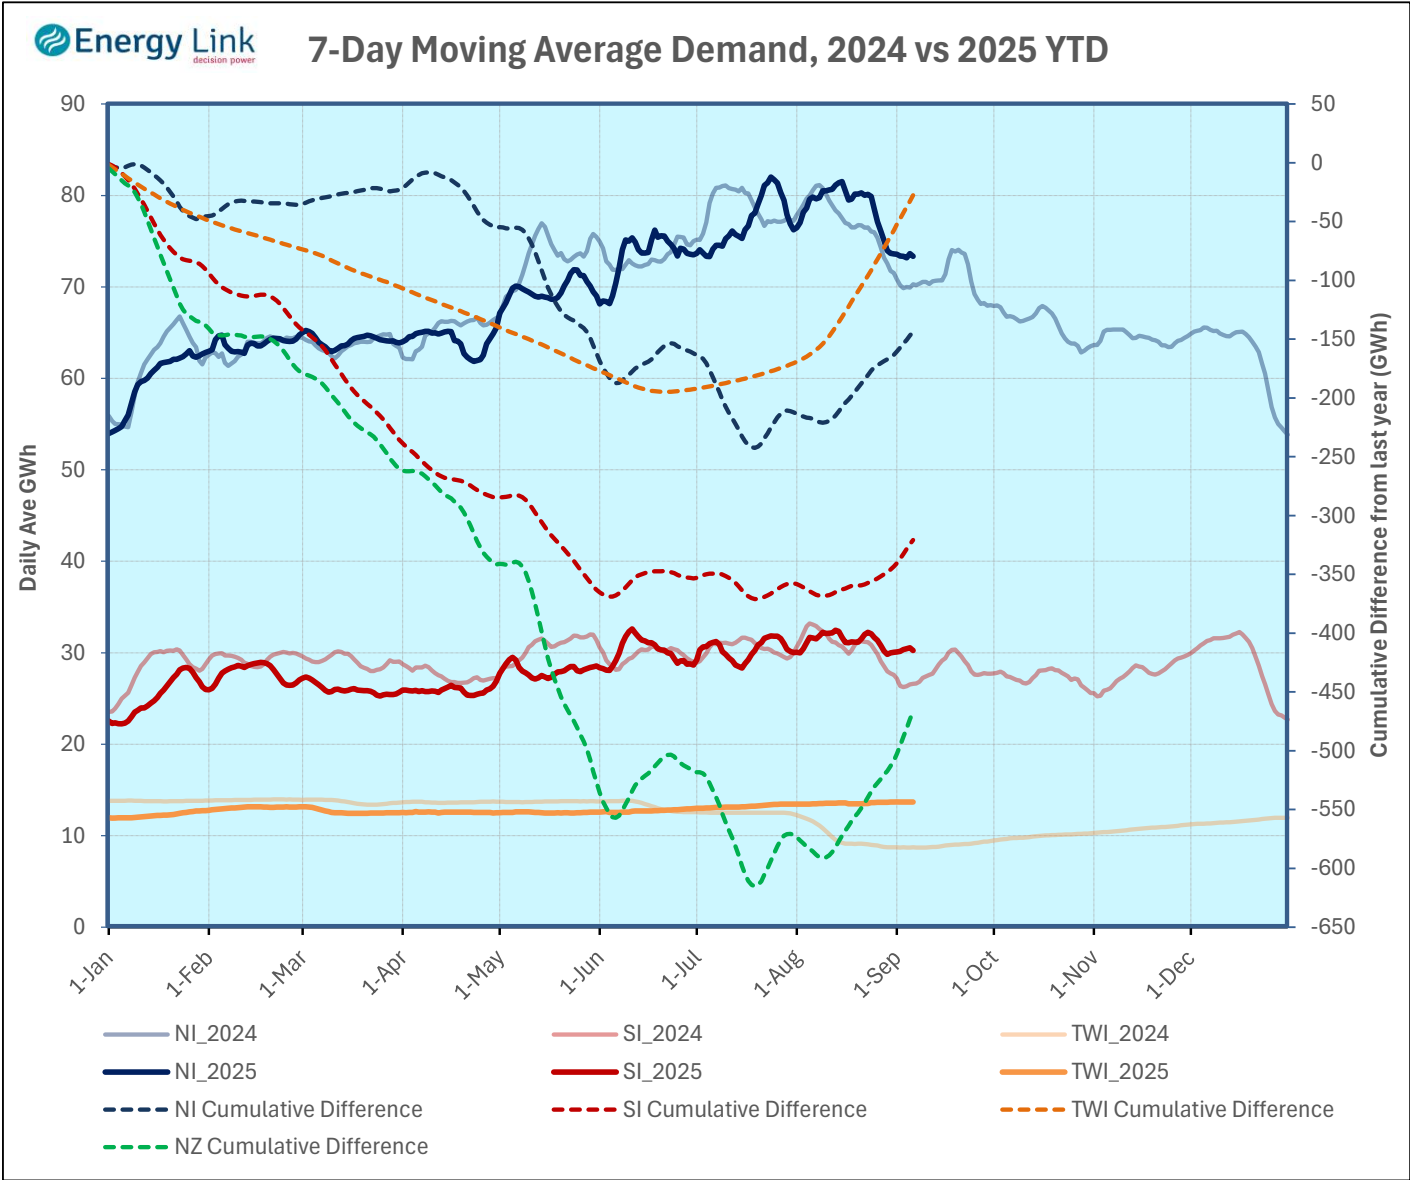

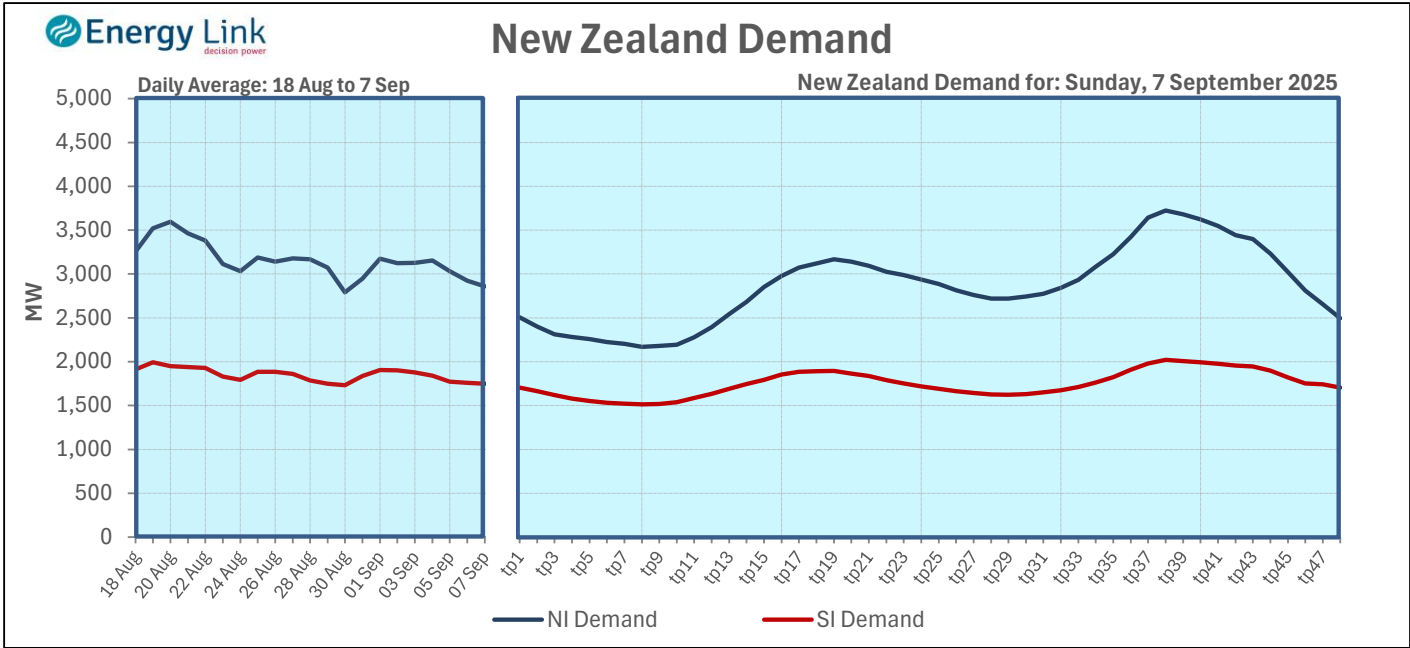

Battery Generation

Generation for: Sunday, 7 September 2025

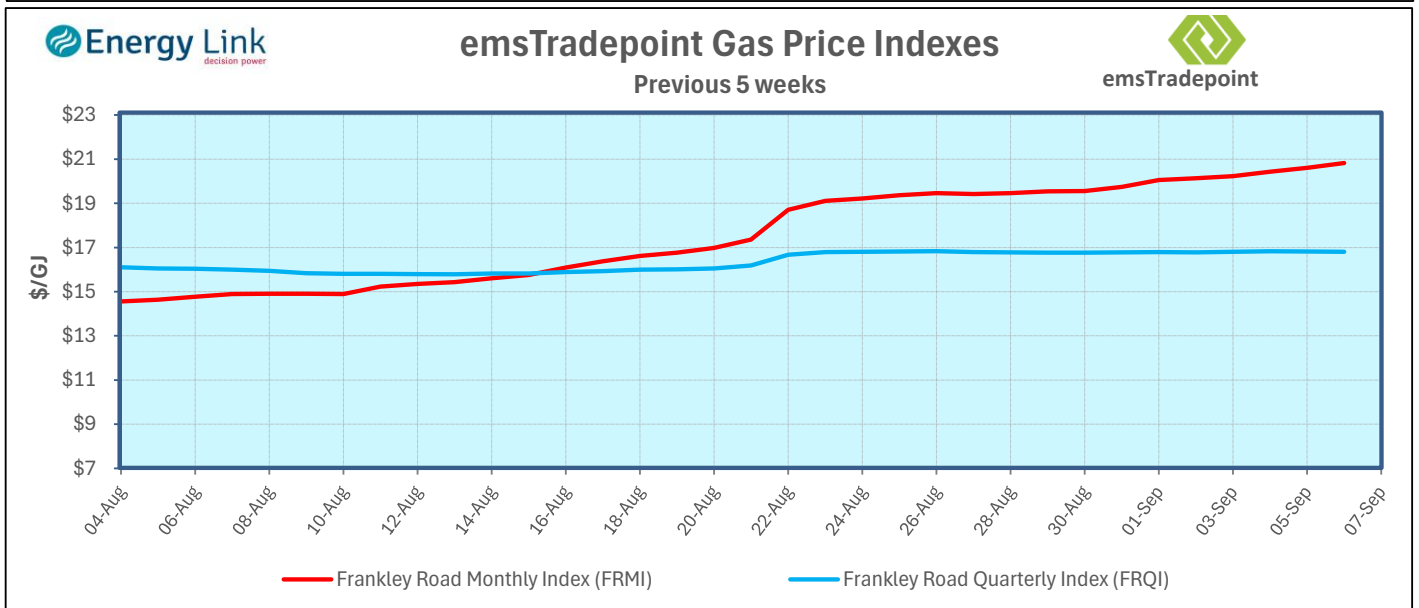

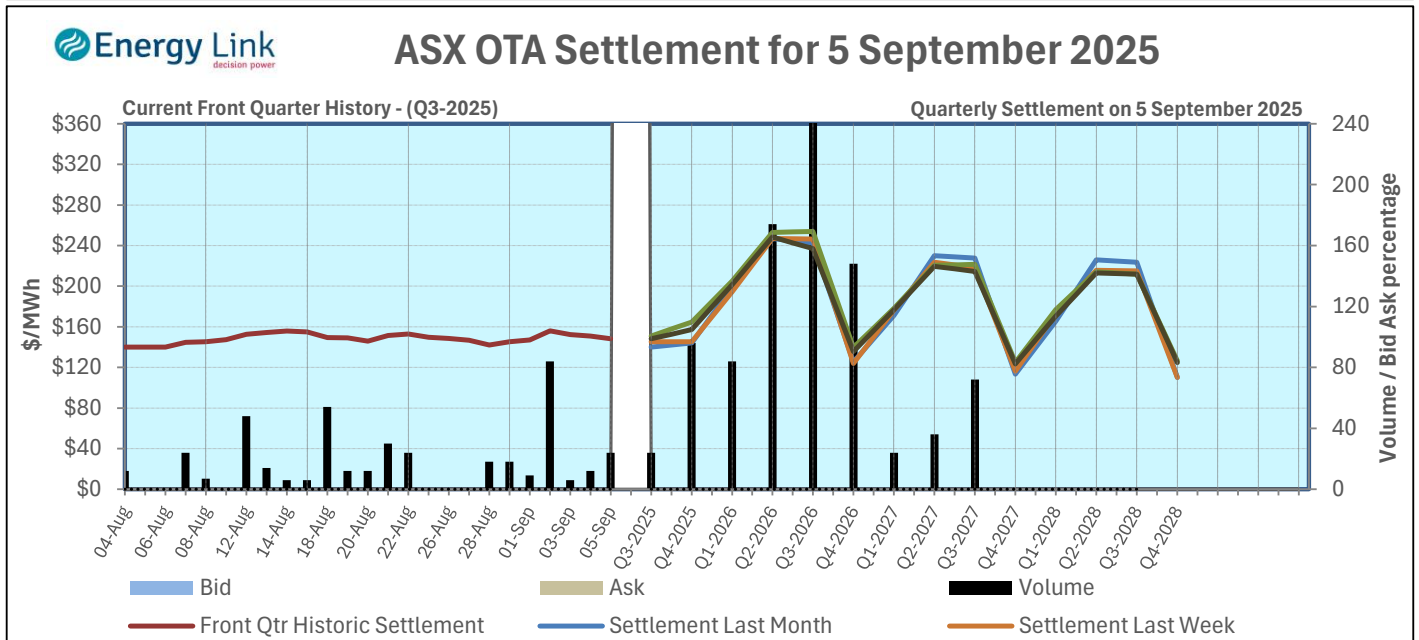

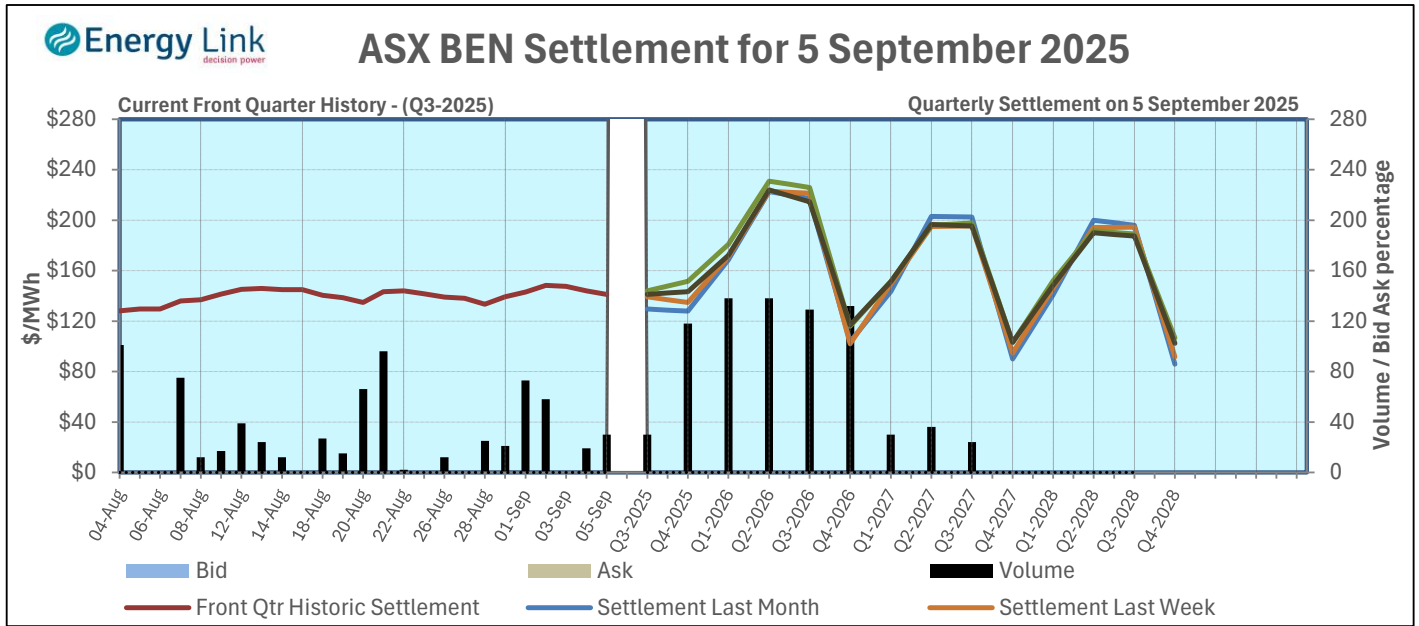

Note: OTA price is indicative and for reference only and does not reflect the price paid or received by the batteries. Powerflow and constraints may result in a price at the batteries that is dramatically different from the reference node.

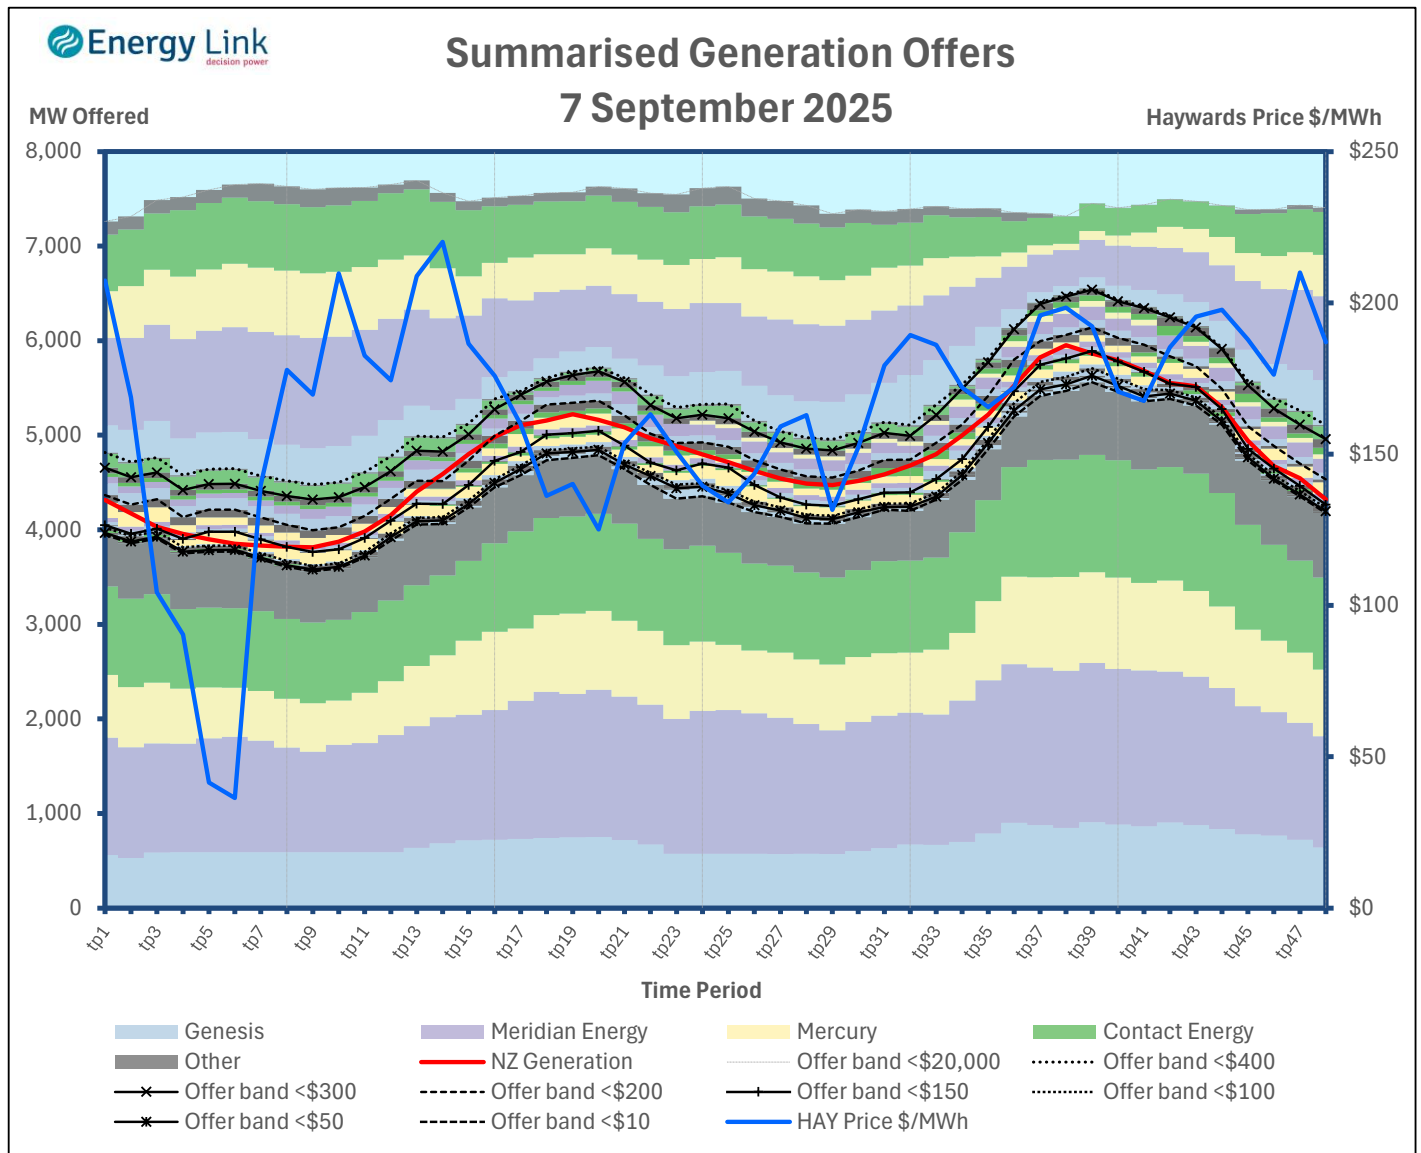

Note: South Island Demand, South Island Cumulative Difference, and New Zealand Cumulative Difference are exclusive of Tiwai Point Demand.

Note: emsTradepoint prices and indices are inclusive of the cost of carbon.

Summarised Generation Offers

The chart above shows the quantities of generation offered into the market by individual generators, between pre-defined offer

\$400 - \$20,000	— Offer band <\$20,000
\$300 - \$400	 Offer band <\$400
\$200 - \$300	—x— Offer band <\$300
\$150 - \$200	--- Offer band <\$200
\$100 - \$150	—+— Offer band <\$150
\$50 - \$100	 Offer band <\$100
\$10 - \$50	—*— Offer band <\$50
\$0 - \$10	--- Offer band <\$10

The region below each offer band contains all the generation offer quantities between the two prices (identified as various black lines), displayed as a generator total (regardless of station). The order of the generators within each offerband is the same and does not represent offer stack order, e.g if viewed within an offer band, Contact being above Mercury does not mean that Contact's offers were higher than Mercury's.

NZ Generation has been used to represent demand so that losses can be taken into account, however it is not total generation as not all embedded or wind generation data is available, also marginal losses and lines constraints are not represented. Therefore the NZ Generation line will not necessarily represent the price.

NZ Generation (red line) and the Haywards price (blue line) are plotted on the chart to assist in interpretation. The price on the second axis relates to the blue 'Haywards Price' line only.
