Price Status - Final

Node:	Month-to-date	7-day Avg	Daily Avg
Benmore	\$5.07	\$23.79	\$6.52
Haywards	\$9.16	\$27.53	\$14.56
Ōtāhuhu	\$11.11	\$34.89	\$17.80

Day	Night	Price Range
\$8.17	\$1.58	\$0.02 - \$17.83
\$18.88	\$1.59	\$0.02 - \$59.72
\$23.16	\$1.72	\$0.02 - \$72.73

Note: For the purposes of this chart, PRSS indicates periods where PRSS was used.

Thermal Generation

Station	Ave MW	Range (MW)
Huntly	71	0 - 136
TCC	0	0 - 0
e3p	0	0 - 0
Huntly p40	0	0 - 0
Whirinaki	0	0 - 0
Stratford Peaker	0	0 - 0
McKee Peaker	0	0 - 0
Junction Rd	0	0 - 0

Hydro	Ave MW	Range (MW)
Waikato	466	95 - 675
Tongariro	171	65 - 245
Waitaki	876	699 - 1105
Takapō	184	184 - 184
Clutha	511	100 - 692
Manapōuri	744	744 - 744
Wind Farms	460	38 - 639

Wind Farms includes: Te Uku, West Wind, Te Āpiti, Tararuas, White Hills, Waipipi, Mill Creek, Te Rere Hau, and Harapaki.

Renewable Generation

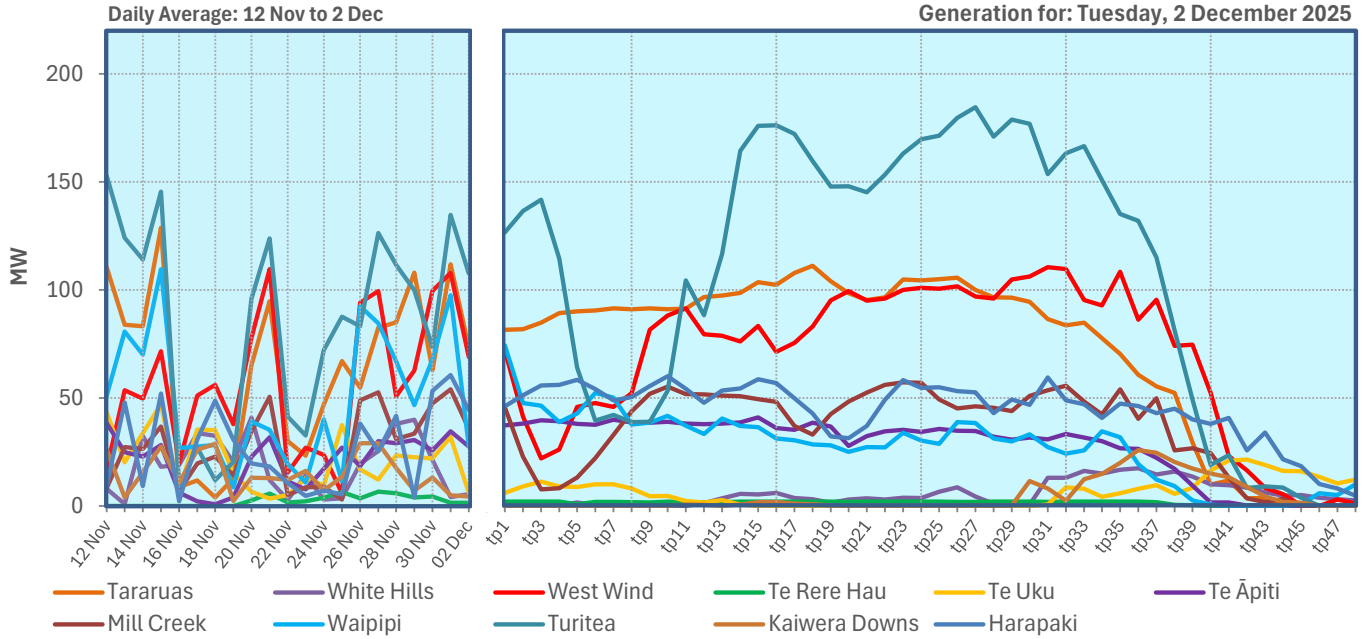

Note: For the purposes of this chart, renewable generation is all hydro, geothermal, wind and grid scale solar.
 Co-generation is counted as thermal generation even though the carbon may be attributed to other industries.
 Landfill gas generation data is provided by WM for Redvale, Whitford, Tirohia, and Kate Valley Landfills.

Wind Generation

Generation for: Tuesday, 2 December 2025

Solar Generation

Generation for: Tuesday, 2 December 2025

Battery Generation

Generation for: Tuesday, 2 December 2025

Note: OTA price is indicative and for reference only and does not reflect the price paid or received by the batteries. Powerflow and constraints may result in a price at the batteries that is dramatically different from the reference node.

Note: South Island Demand, South Island Cumulative Difference, and New Zealand Cumulative Difference are exclusive of Tiwai Point Demand.

Note: emsTradepoint prices and indices are inclusive of the cost of carbon.

Summarised Generation Offers

The chart above shows the quantities of generation offered into the market by individual generators, between pre-defined offer

\$400 - \$20,000	— Offer band <\$20,000
\$300 - \$400	. . . Offer band <\$400
\$200 - \$300	— x — Offer band <\$300
\$150 - \$200	- - - Offer band <\$200
\$100 - \$150	— + — Offer band <\$150
\$50 - \$100	. . . Offer band <\$100
\$10 - \$50	* — Offer band <\$50
\$0 - \$10	- . - Offer band <\$10

The region below each offer band contains all the generation offer quantities between the two prices (identified as various black lines), displayed as a generator total (regardless of station). The order of the generators within each offerband is the same and does not represent offer stack order, e.g if viewed within an offer band, Contact being above Mercury does not mean that Contact's offers were higher than Mercury's.

NZ Generation has been used to represent demand so that losses can be taken into account, however it is not total generation as not all embedded or wind generation data is available, also marginal losses and lines constraints are not represented. Therefore the NZ Generation line will not necessarily represent the price.

NZ Generation (red line) and the Haywards price (blue line) are plotted on the chart to assist in interpretation. The price on the second axis relates to the blue 'Haywards Price' line only.
