HVDC Flow and Reserve Prices

Generation Summary

Percentage of Renewable Generation

Thermal Generation

Station	Ave MW	Range (MW)
Huntly	125	50 - 210
TCC	0	0 - 0
e3p	0	0 - 0
Huntly p40	0	0 - 0
Whirinaki	0	0 - 0
Stratford Peaker	0	0 - 4
McKee Peaker	0	0 - 0
Junction Rd	14	0 - 48

Hydro	Ave MW	Range (MW)
Waikato	545	303 - 677
Tongariro	159	105 - 242
Waitaki	957	553 - 1281
Takapō	120	74 - 166
Clutha	291	120 - 482
Manapōuri	501	331 - 596
Wind Farms	519	445 - 624

Wind Farms includes: Te Uku, West Wind, Te Āpiti, Tararuas, White Hills, Waipipi, Mill Creek, Te Rere Hau, and Harapaki.

Renewable Generation

Note: For the purposes of this chart, renewable generation is all hydro, geothermal, wind and grid scale solar.

Co-generation is counted as thermal generation even though the carbon may be attributed to other industries.

Landfill gas generation data is provided by WM for Redvale, Whitford, Tirohia, and Kate Valley Landfills.

Wind Generation

Daily Average: 11 Feb to 3 Mar

Generation for: Tuesday, 3 March 2026

Solar Generation

Daily Average: 11 Feb to 3 Mar

Generation for: Tuesday, 3 March 2026

Battery Generation

Generation for: Tuesday, 3 March 2026

Note: OTA price is indicative and for reference only and does not reflect the price paid or received by the batteries. Powerflow and constraints may result in a price at the batteries that is dramatically different from the reference node.

Nodal Prices

North Island Location Factors (HAY2201)

South Island Location Factors (BEN2201)

Note: South Island Demand, South Island Cumulative Difference, and New Zealand Cumulative Difference are exclusive of Tiwai Point Demand.

ASX BEN Settlement for 3 March 2026

ASX OTA Settlement for 3 March 2026

Summarised Generation Offers

The chart above shows the quantities of generation offered into the market by individual generators, between pre-defined offer

\$400 - \$20,000	— Offer band <\$20,000
\$300 - \$400	 Offer band <\$400
\$200 - \$300	- - - Offer band <\$300
\$150 - \$200	- . - . Offer band <\$200
\$100 - \$150	- - - - Offer band <\$150
\$50 - \$100	 Offer band <\$100
\$10 - \$50	- * - * Offer band <\$50
\$0 - \$10	- - - - Offer band <\$10

The region below each offer band contains all the generation offer quantities between the two prices (identified as various black lines), displayed as a generator total (regardless of station). The order of the generators within each offerband is the same and does not represent offer stack order, e.g if viewed within an offer band, Contact being above Mercury does not mean that Contact's offers were higher than Mercury's.

NZ Generation has been used to represent demand so that losses can be taken into account, however it is not total generation as not all embedded or wind generation data is available, also marginal losses and lines constraints are not represented. Therefore the NZ Generation line will not necessarily represent the price.

NZ Generation (red line) and the Haywards price (blue line) are plotted on the chart to assist in interpretation. The price on the second axis relates to the blue 'Haywards Price' line only.
